PROFESSIONAL SUMMARY

Seeking a role as a seasoned full-stack developer with 2.7 years of experience, proficient in crafting highly performant code utilizing the MERN stack. Possessing an advanced skillset in HTML, CSS, and JavaScript, I am enthusiastic about creating dynamic and intuitive websites that captivate and engage users. As an imaginative developer with extensive experience in full software development, I strive to bring innovative solutions to complex technical challenges.

- *Developing and maintaining CSM and CRM systems.*

TechStack : *MongoDb | Node JS | Express Js | Postman | Atlas | Compass*

PROJECTS

E-Commerce App

A web application built on React Js where users can order a variety of food and snacks is a Full-Stack project where the backend is deployed on Heroku and the frontend is deployed on the Vercel app.

Features:-
- *User authentication system on Sign-in/Sign-up.*
- *Implemented Redux for state management.*
- *Dynamic and User friendly.*
- *Sorting and filter options are available.*
- *Implemented counter feature on the cart icon.*
- *Users can add, delete and modify the product on the cart page.*

TechStack:-
React Js| Redux | Node Js | MongoDB | Express JS | Material UI | HTML | Css | Github

Responsibility:
- *Built the complete app from scratch.*
- *Made the application responsive on any screen size.*
- *Created the functional Navbar region.*
- *Built a dynamic checkout page.*

Done a solo project to get the end-to-end experience of the project in 5 days.
